

Features

- Built-in amplifier of all in one design
- Rated power output of 20 watts
- 6"+3" two way waterproof speaker system
- Steel enclosure and aluminum grille of rust prevention finish
- IP56 waterproof level
- Wider dispersion range
- Mounting bracket is supplied

Description

The all-weather high-power column speaker is built-in rated 20W output power amplifier and 6" plus 3" two way waterproof drivers, the two parts are well sealed and isolated from each to avoid magnetic interference and noise, also the first-class components help to disperse full frequency response for background music and paging system.

It can remit sounds for a long distance because its high-power broad band-wave speakers. The waterproof IP56 rate and rust prevention processed metal enclosure can endure years of high performance, and the ABS top and bottom cover, the aluminum grille and one metal pair of mounting brackets all are provided for easy mounting.

There are dual RCA line inputs with volume control, the AC 230V or 110V power supply input is provided with power switch and AC fuse.

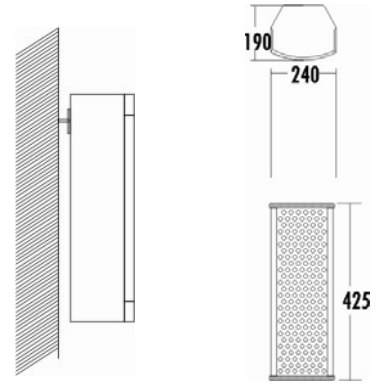

Ideal for outdoor applications in train stations, school, stadiums, shopping mall, park, garden, hospital and hotel, etc.

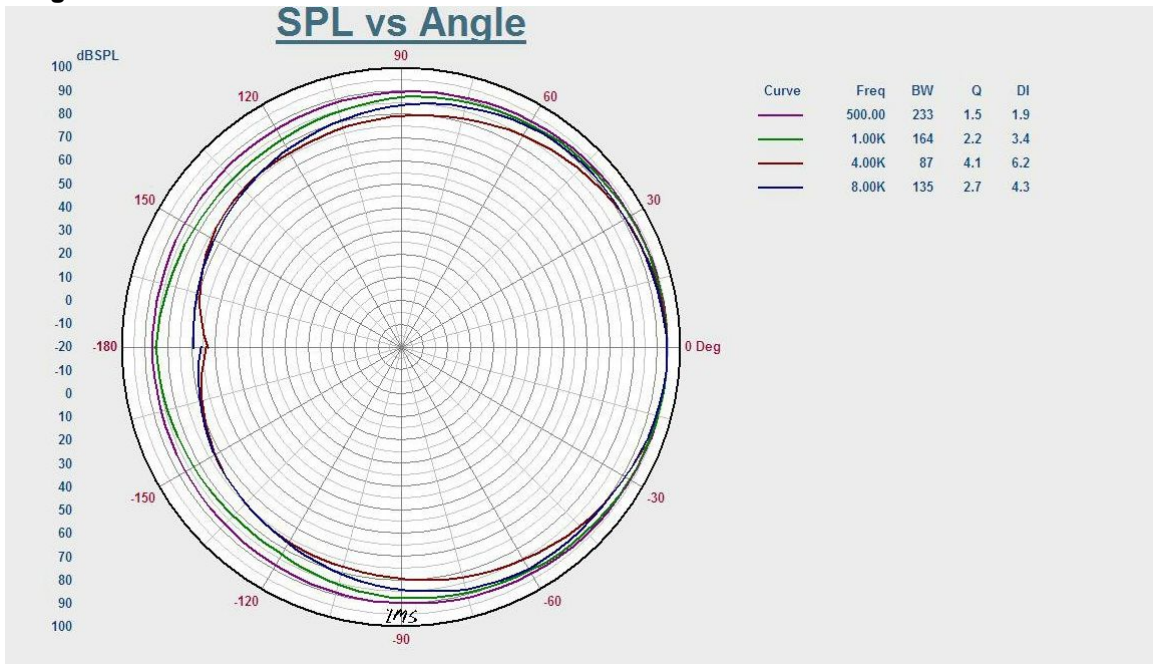

Specification

Model	T-901P	
Rated Power	20W	
Max Power	30W	
Input Voltage	220V / 50Hz	
SPL(1W/1M)	85dB ±3dB	
Max. SPL (Rated W/1M)	100dB	
Frequency Response (-10dB)	110-15KHz	
Finish	Body: Steel, Dark Green	Grille: Aluminum, Dark Green
Speaker Driver	6"x1	3"x1
IP Rate	IPx 6	
Dimensions	190x240x425mm	
Weight	6Kg	
Mounting	With mounting bracket fixed by screw
