

## Features

\* TH-9000S is a digital system whistle proof device special for conference, lecture, teaching and stage. It is effective to control whistle, amplifier volume and guarantee voice transmission quality, High fidelity and clear voice. It can restrain the returning whistle maximally, and prevent burnout of the acoustics devices and speakers effectively.

## Specifications

Model	TH-9000S
Power Supply	AC 120V or 220V; 50-60Hz
Frequency Shift	5Hz $\pm$ 1Hz
Gain Increase	5-14dB
Line Input Impedance	5K
Line Output Impedance	600
Frequency Response	150Hz-15KHz of shift mode and 20Hz-20KHz non-shift mode
Input Mic Type	Condenser Mic
Mic Input	One balanced XLR mic input
Input	One XLR mic input, one mono RCA line input and one mono effector input
Output	One XLR balanced output, one mono RCA line output and one mono effector output
Shifter Mode	Frequency shifter auto open when power on
Power Consumption	10 watts
Dimensions (WxHxD)	420x205x44mm
Weight	2.41kg
