

Features

Two frequency of small professional monitoring level sound boxes. Adopt the high power titanium treble. Matched with 10 inches high power frequency transducers, make it in the 200 W / 100 W power when the work is still easily, medium high frequency is clearer powerful. Apply to karaoke room, DISCO room and other small high fidelity amplification places.

Specifications

Model	TS-10 A
Impedance	8 Ω
Frequency Response	60Hz ~ 20KHz
Power	120W
Sensitivity	100dB
Override Angle	(H)90° (V)45°
Treble	ϕ 34 titanium coating treble
Bass	ϕ 190/(126) magnetic 10 inch bass
Enclosure Material	15mm high density board
Case Body Surface Treatment	Dark gray paint
Dimensions	360x290x540mm
Weight	20Kg
